SCREEN PRINTING COLD PEEL TRANSFER

STEP 1

STEP 2

Pre shrink the paper in the drying tunnel

Cover the paper until screen printing step

STEP 3

Screen print each colour

Cure each screen printed ink in a drying tunnel

Make a rolling test to check if the curing is ok

To avoid miss registering, cover the printed sheets, in between each printed colour

To enhance washing resistance :
After the last colour, and just prior entering in the drying tunnel, spray adhesive powder.
Remove excess of powder by shaking

Cut and wrap the printed sheets in a sealed plastic bag

STEP 4

Heat press the design on the garment within 6 months after printing
